***FOR IMMEDIATE RELEASE***

**Media Contact:** Lt. Grady Jordan

**Date:** January 9, 2017

## Cellular Networks Experiencing Problems Calling Land-lines Including 911

Currently, certain cellular networks are experiencing problems calling landline phones, including the 911 system. Once callers dial 911 it sounds like the call is not connected, however, it is connecting and an operator is being notified of the incoming call. The 911 system **IS** functioning properly and if you dial 911 please **stay on the line and do not hang up.**

Lt. Grady Jordan, Public Information Officer

Office (850)606-3342
