## Godby Student Arrested for Online Threats

Early this morning LCSO School Resource Deputies along with agents from the Florida Department of Law Enforcement arrested Travis Williams 17, for making online threats to conduct a school shooting at Godby High School.

Last night, School Resource Deputies received information from Godby High School staff that an Instagram post was circulating online, stating "I'm going to shoot up amos p godby I swear just wait on 2/23/18." The information was also received by the Gadsden County Sheriff's Office and communicated to the Florida Department of Law Enforcement. Deputies and agents immediately began to investigate the threat in an attempt to track down the origin of the post.

Within a few hours deputies were able to locate the device used to make the post and contact was made with Williams. Probable cause was developed and Williams was taken into custody for making the threat. He was transported to the Juvenile Assessment Center.
